

## mobile banking

**Need to make a quick transfer? Miles from a computer? No problem.** You're in the checkout line and need to make a transfer to cover a debit purchase. With mobile banking from AMPLIFY, it's no problem. You can do that and more with your web-enabled cell phone or PDA.

**Find an ATM** You're out of town and need to find the nearest fee-free ATM. Just point your mobile device to [mobile.goamplify.com](http://mobile.goamplify.com) (no www needed) and you can search for ATMs, find branches, hours, and shared branch locations.

**Get loan and deposit rates** You're at the boat dealership and you're wondering what kind of rate you can get on a loan from AMPLIFY. Check rates on the spot with mobile banking.

**Instant Information** Want to know what's going on with your funds while you're busy? You can be notified via text message to your cell phone about nearly anything you want to know, automatically. When you use our free Moneytracker software, you can set up alerts to tell you about any type of transaction – sent right to your phone. You'll get the date, amount and description of the transaction, and your current balance by 6 a.m. every morning. Find out if your paycheck was deposited; if a check cleared; if an automatic payment was made - whatever you like. It's up to you. Just sign up for online banking and Moneytracker at [goamplify.com](http://goamplify.com). It's easy, it's secure, and it's free. And it leaves more free time for you.

### **Quick. Convenient. Simple.**

With mobile banking you can do all your normal transactions. Check balances, make transfers, view cleared check images, set up BillPayer payments, view account history, and even open additional accounts.

No matter where you are, **AMPLIFY** is right there. We're as close as [mobile.goamplify.com](http://mobile.goamplify.com). Check out the online demo at [goamplify.com](http://goamplify.com).
