Bellco Credit Union Members Can Bank “On the Go” with Their Mobile Phones

GREENWOOD VILLAGE, Colo.--([BUSINESS WIRE](#))--Bellco Credit Union is making it easier for members to take care of their banking needs and access Bellco services through their mobile phones with Bellco's new Mobile Banking.

Bellco members can use their Internet-enabled mobile phones or PDAs to visit www.bellco.org and check their account balances, view account history, transfer funds between accounts and manage online bill pay.

This new Mobile Banking feature enables members to check Bellco's rates on loans, CDs and other products or find a Bellco branch or ATM location when they're on the move.

“Bellco Credit Union introduced our new Mobile Banking service to provide our members with the convenience they need in their busy lives,” said Sandra Sagehorn-Elliott, Vice President of Customer Relationship Management at Bellco Credit Union. “Bellco wants to make the banking experience as simple as possible for our members.”

All members using Bellco online banking from their PCs can begin accessing their account information on their mobile phones immediately. New users should visit the Bellco website first.

Security is a priority for Bellco, so personal information is never stored on the member's personal mobile device and the application is protected by the latest security technology.

No log-in is necessary to check Bellco's rates or to find ATM and branch locations. That information is available to all.
